

TAKE CONTROL OF CONTAMINATION

Program for Buses

Our dedicated Oil and Fuel Program for bus application lets you eliminate and take control of contamination issues **for good**.

Oil and Fuel Program

We remove water and contamination in real-time preventing equipment breakdown. Oil and fuel are constantly cleaner and engine maintenance becomes easier, quicker, cheaper and better!

Benefits

- » Clean oil and fuel
- » Use less oil and fuel
- » Longer parts & engine life
- » Save more money

REDUCE

Reduce engine-related failures and breakdown by 70%.

Reduce oil use by up to 70% and fuel consumption by up to 5%.

Reduce carbon emissions and carbon footprint per bus.

EXTEND

Extend oil life and oil change interval to 30,000km without losing performance.

Extend fuel injector life up to 6 times than normal lifespan.

Extend usable life of fuel.

SAVE

Save on operating costs, maintenance costs, repair costs and replacement parts.

Save on new oil and fuel costs.

Save the environment by using less resources and producing less gas emissions.

Do you want to solve your contamination issues?

Eliminate all kinds of water

Remove contaminants (1 micron)

Preserve additive package

Suitable for oil and fuel

Good for the environment

Filtration Unit

	Heavy Duty	Super Duty
Sump Capacity Engine	100 litres	200 litres
Max. Pressure	10 bar	10 bar
Height	165 mm	165 mm
Diameter	190 mm	220 mm
Water Retention	400 ml	780 ml

Cartridge

	Heavy Duty	Super Duty
Suitable for	HD Filtration	SD Filtration
Height	100 mm	100 mm
Diameter	145 mm	200 mm
Single Item Weight	450 g	850 g
